Industrial Visits

Expert Lectures

Workshops, Staff Achievements

The Computer department is established in the year 2008 with the intake of 60 students. Computer Engineering is a discipline that integrates several fields of computer science and electrical engineering required to develop computer hardware and software. Computer Industry is one of the full grown and still fastest growing industries in the world today.

Technology being a global phenomenon, the computer industry today is employing millions of the people to shoot up business or for entertainment.

Department of Computer Engineering is prepared to meet the challenges and is playing a leadership role in shaping the education of the 21st Century by providing unique educational and research opportunities in the forefront of Computer Engineering and their applications.

This year also department maintained the reputation in academic performance with placing the student in different organizations by training and placement cells.

Ms.P.S.Patil.

Vision

To create skilled and technically competent diploma computer professionals to meet the need of industry, business & society.

Mission
